
bson lazy Documentation

Release 0.2.4

R. Vliegendhart

Apr 26, 2017

Contents

1	Readme	3
1.1	Usage	3
1.2	Installation	3
1.3	Usage of <i>bson2json.py</i>	4
2	Modules	5
2.1	<code>bson_lazy</code>	5
2.2	<code>bson2json</code>	5
3	Indices and tables	7

Contents:

Usage

The `bson_lazy` package provides a `load()` function that lazily reads a BSON file. The package also comes with a simple BSON to JSON utility.

Example usage:

```
import bson_lazy
from bson.json_util import dumps

def json_pprint(doc):
    print dumps(doc, sort_keys=True, indent=4, separators=(',', ':'))

with open('sample.bson', 'rb') as f:
    for doc in bson_lazy.load(f):
        json_pprint(doc)
```

The implementation of `bson_lazy.load()` is based on PyMongo's `bson` package.

Installation

This package can be installed using `pip`:

```
pip install https://github.com/ShinNoNoir/bson_lazy/archive/master.zip
```

Or:

```
pip install -e git://github.com/ShinNoNoir/bson_lazy.git#egg=bson_lazy
```

Usage of *bson2json.py*

This utility displays BSON files to stdout.

Usage: *bson2json.py* *FILE...* [*OPTIONS*]

Options:

--pretty	Pretty print JSON
--help	Print this help message

CHAPTER 2

Modules

`bson_lazy`

`bson2json`

CHAPTER 3

Indices and tables

- `genindex`
- `modindex`
- `search`
